

# **Goldwyn Ashford - Art**

## **Subject Statement and Long Term Plan**

## **Art Department – Impact Statement**

### **Our aims in Art at Goldwyn are:**

- To enable students to develop an understanding and awareness of the world around them by questioning their surroundings, looking deeply and opening their eyes to fresh perspectives.
- To develop an awareness of health and safety within an art studio environment and to take responsibility for managing the materials they use.
- To develop and apply art skills such as drawing, painting and sculpting and artistic techniques to communicate an idea and analyse the effectiveness of own art work.
- To be creative and develop their ability to problem solve, think academically, emotionally, physically and spiritually. They will learn to adopt resilience and focus in applying their technical skills to projects that develop their self-expression.
- To respond imaginatively to artist and thematic research and use knowledge of key artists and cultures to inspire their art work. Students develop an understanding of the historical and cultural development of art forms and are taught to evaluate and analyse artworks using subject-specific vocabulary.
- To plan and develop meaningful responses for their art work that realises intentions and demonstrates an understanding of visual language.
- To display creative expression which leads to improved well-being, and support their study experience. The study of other cultures through Art has strong links with Religious Education, History, English, and Media.

### **Pupils are taught:**

- To use a range of artistic techniques to record their observations in booklets as a basis for developing essential key skills and exploring their ideas
- To use a range of techniques and media, including painting, sculpture and mixed media
- To increase their proficiency in the handling of different materials
- To analyse and evaluate their own work, and that of others, in order to strengthen the visual impact or applications of their work
- About both older and more-contemporary art forms.
