

Goldwyn Plus Ashford - Art and Design

Subject Statement and Long Term Plan

Art and Design – Statement of Intent

“Art is a personal gift that changes the recipient. The medium doesn’t matter. The intent does” - Seth Godin

Art and Design facilitates opportunities for creativity and expression, empowering individuals to develop and share their own unique style and ways of working. By studying a range of artists, designers and craftspeople, students are able to explore different artistic styles and approaches to work; as well recognising how art and design influences our environment, reflects and shapes our history, contributes to a greater understanding of society and the diversity of cultures and traditions around the World.

Through the study of Art and Design, students learn to have a deeper understanding of artistic techniques and processes and develop a critical understanding of their work through research and investigation. They learn how to constructively value and judge both their own work and the work of others, develop skills in analysing, critiquing and evaluating using the language of art. Students learn how to use visual language, as well as developing their written literacy skills, to express and communicate their ideas for a desired outcome. Problem solving skills are enhanced through the manipulation of materials and processes, while responding, experimenting and adapting their thinking are required in order to realise their own intentions.

At Goldwyn Plus, students are encouraged to explore their creativity through the learning of a wide range of processes and techniques. They are supported to develop independent responses to a given theme, which encapsulates their own ideas and demonstrates a developed understanding of Artists, Designers or Craftspeople. Individual outcomes become more complex through the Key Stages, to evidence a growth in key skills. Students are encouraged to widen their conceptual knowledge as well as expressing their own identity and style, boosting their own self-awareness and self-confidence. It is the intention that students will be equipped with the skills and knowledge to carve out a career in their desired industries.

It is common that many of our students do not complete the whole of Key Stage 3 and 4 with us at Goldwyn Plus. As such, the curriculum is organised into standalone projects, which aim to encompass many of the skills and processes needed for teaching in Key Stage 3, but allowing individuals to have opportunities to plug gaps in their learning. Students will not necessarily complete all of the units set or may work on projects in a differing order within Key Stage 3 in order to accommodate the learning of others within a group or interest setting.

Those entering Goldwyn Plus in Key Stage 4, will be supported in their development of skills individually where necessary in order to prepare them for their GCSE examinations.

Art lessons at Goldwyn Plus aim to:

- Provide a positive, stimulating environment in which to work and where all ideas are valued.

- Increase capacity to engage and produce creative pieces of work linked to own interests or for therapeutic purposes.
- Offer a range of activities that students can respond to using a range of techniques and tools safely.
- Scaffold learning; whilst developing confidence in exploring, expressing, developing and refining ideas.
- Promote an ethos of creative thinking, problem solving and risk taking.
- Encourage independent learning with cross-curricular links where applicable.
- Develop skills, knowledge and understanding of a broad range of art and design materials, processes and techniques with increased execution over time.
- Widen knowledge and understanding of artists, designers and craftspeople over time and throughout the world.
- Develop students as critical and reflective thinkers; using the language of art to explain thinking in a clear and organised way with relevance to the setting out of their final intentions.
- To make use of new technologies where possible.

The curriculum is sequenced to ensure:

- Stand-alone projects with skills-based learning, incorporating several elements of art in order to maximise learning potential due to a shortened Key Stage 3 entry. It is likely that students who attend the provision in KS3 will not complete all projects and will have individual pathways to KS4
- Individual bespoke programmes where necessary to ensure gaps in learning are addressed.
- Students are exposed to as wide a range of processes and techniques as possible in both KS3 and KS4, dependant on their time at Goldwyn Plus
- A seamless transition and progression between KS3 and KS4, with opportunities to practise, refine, develop and improve key skills and techniques with greater independence over time, linking carefully to attainment targets.
- Student learning is scaffolded and supported through the teaching of introductory projects, through developing and sustained projects as well as independent projects leading to autonomous learners.
- There is an increasing level of challenge and complexity of skills developed throughout the Key Stages.

Examinations:

It is anticipated that ALL pupils will have the opportunity to gain a qualification in Art best suited to their individual needs and skills. Those qualifications will include AQA GCSE Art and Design or AQA Unit Awards for bespoke areas of interest to individuals.

Art and Design Department: Long Term Plan

The Art and Design Long Term Plan reflects a key focus upon Knowledge, Skills and Understanding. It is anticipated that all pupils will have the opportunity to study for a formal qualification which addresses their needs, including AQA GCSE Art and Design options as well as AQA Unit Awards. The Curriculum Plan has a clear sequence centred upon both prior learning and expectations for future learning. The work at Key Stage 3 should provide the foundation for further progress through Key Stage 4.

Some students may require an individual programme catering for a bespoke or therapeutic needs and this will be accommodated as appropriate.

Term	1	2	3	4	5	6
Year 7	<p>Using a Camera</p> <ol style="list-style-type: none"> Parts of the camera and function Experimentation with camera and images Research photographer Take at least 20 photographs related to selected theme Download and share Photographs Manipulate a final image of choice using appropriate software <p>Key areas of study: techniques Photography</p> <p>Key areas of study: media Digital manipulation software, DSLR camera</p> <p>Art Elements</p>	<p>Manga Art</p> <ol style="list-style-type: none"> Mood board Research a Manga artist Select images of portraits for work Practice drawing in Manga style Draw four images of own Manga characters Produce final portrait of favourite portrait <p>Key areas of study: techniques Drawing/ Photography/ Mixed Media</p> <p>Key areas of study: media Pencil, pen, ink, digital manipulation software, DSLR camera, pastels, paint</p> <p>Art Elements</p>	<p>Art and Music</p> <ol style="list-style-type: none"> Title page Artist research page and discuss talk about the artist and his work Replicate work of artist using different medium Identify symbols and lines used in work. Link colour and mood ideas for own work. Use music as stimulus for own work on A1 or A2 paper. Apply colour to work <p>Key areas of study: techniques Painting/ Drawing</p> <p>Key areas of study: media Pencil, pen, soft pastels, watercolours, acrylic and poster paint, oil pastels</p>	<p>Aboriginal Art</p> <ol style="list-style-type: none"> Title page Mood board depicting Aboriginal Art Research into background of Aboriginal art, marks, symbols and colours Design a clay tile, using range of media Clay tile making Finishing off clay tile with decoration <p>Key areas of study: techniques 3D Sculpture/ Painting</p> <p>Key areas of study: media Pencil, coloured pencils, oil pastels, acrylic and poster paint, clay</p> <p>Art Elements • pattern • texture •</p>	<p>Art in the Environment</p> <ol style="list-style-type: none"> Mood board Visit to local area/ Folkestone Research artist of choice Gormley, Moore, Hepworth, Goldsworthy, Michael Craig-Martin, Claus Oldenburg.
